

Extreme Playground Makeover

Modeled after the T.V. show the Extreme Makeover: Home Edition, you are in charge of designing an extreme playground design! The catch? You must use at least 15 geometric shapes and elements in your design incorporated into the playground features.

After the playground sketches and designs are finished, it is time to write your persuasive letter to the Mayor of Bellmawr to help persuade him to allow your design into a location in Bellmawr. Think of a place/site in Bellmawr where your playground design would be best suited. Be sure to include the following in your persuasive essay: topic sentence, three features described in detail with two sentences for each feature, the site in which you choose to input your design into Bellmawr, with the reason for your site location, and a concluding sentence.

To be submitted:

1. A sketch/design of the playground
2. Calculate the area of playground dimensions
3. Persuasive letter to the Mayor of Bellmawr
